EXPERIENCE

Freelancer   2023 – Present
Web Developer

- Developed a Custom React carousel component from scratch without any external libraries.
- Created a full-stack WordPress blog website with a focus on health and wellness content.

PROJECTS

Blog Website with Admin panel | *Next JS, MongoDB, Prisma, Auth JS, Firebase*   Github | Live

- Developed a blog website with an intuitive admin panel using NextJS
- Implemented blog search functionality for efficient content discovery.
- Utilized Firebase Bucket Storage for efficient image management.
- Included a rich-text editor for easy blog content creation and editing.
- Enabled role-based access control for user management.

AI Image Generator | *Next JS, OpenAI API, MongoDB, Axios, Cloudinary*   Github | Live

- Built a web application that generates AI-powered images based on user prompts.
- Integrated OpenAI API for image creation.
- Used MongoDB for storing user, prompt, and image data.
- Enabled community sharing of AI-generated images.

Chat App | *React, Node JS, Express, MongoDB, Socket.io*   Github | Live

- Developed a real-time chat application using the MERN stack.
- Utilized Socket.io for seamless user communication.
- Incorporated MongoDB for storing user data and chat logs.
- Implemented password encryption with Bcrypt, and user authentication.

Crypto App | *React, Chakra UI, Coingecko API*   Github | Live

- Created a Crypto App that displays real-time cryptocurrency prices and stats.
- Listed top 1000 cryptocurrencies and 100 global marketplaces.
- Added pagination for smooth navigation.
- Integrated dark mode for enhanced user experience.
